

## **Cancellation of MF-TOKYO 2021 “The 7th METAL FORMING FAIR TOKYO”**

MF-TOKYO 2021 scheduled to be held at Tokyo Big Sight from July 14th to 17th, 2021 has been canceled due to the following reasons:

- ① The 2020 Tokyo Olympics and Paralympics will be postponed until 2021, and the period of the use of Big Sight for the Olympics and Paralympics will overlap with that of MF-TOKYO 2021, so we are unable to secure the exhibition spaces as planned.
- ② As the epidemic of COVID-19 may not subside by the time of the fair, the health and safety of visitors, exhibitors and related parties cannot be ensured.

It is deeply regrettable for us as organizers, but we sincerely appreciate understanding from all exhibitors and those who have been cooperating with us. The next fair will be held in 2023.

## Warning on questionable practices

---

### **[Warning] Scam for confirming and listing of your company information**

**\*\*\*Watch out for the document pretending to be from the organizer or the secretariat\*\*\***

Recently, we have received reports about a case which an overseas company called "International Fairs Directory" pretending to be the Secretariat has sent an English document to each company who has exhibited at MF-TOKYO in the past by mail, e-mail, and fax, etc., asking for verifying company information.

Although, in writing it is pretended to be an official information from the MF-TOKYO Secretariat (Nikkan Kogyo Shimbun), this is nonrelated with the organizers or the MF-TOKYO Secretariat.

In addition, besides the International Fairs Directory, it is reported that the following companies provided similar information at other exhibitions in the past.

- Construct Data Publishers
- FairGuide.com
- Construct Data Verlag
- EXPO GUIDE

Please beware that you may receive a hefty bill at a later date if you make any respond to the order form.

\* Please refer to the detailed information posted here as well.
